# Headstart Academy

Train • Teach • Transform

*"It really boosts my confidence for school interviews."*

*"Never thought accent neutralisation can be that easy!"*

*"I am in love with lesson planning after the training!"*

**Headstart Academy has gained an unsurpassed reputation and rapport from our teachers. Through practical activities and hands-on exercises, their teaching skills and techniques have been improved and confidence enhanced.**

**The past four months have been the greatest learning experience for them.**

***Never compromise on quality.***

## **Words from our trainers**

**'It was incredible!'**

**I experienced a joy in each one of the teachers that they were able to take on the knowledge that they've learned and feel more confident to take on interview process.**

**Mr Jeffrey John Anello**

**Accent Neutralization is not about adopting a new accent and speaking like someone you are not but rather, modifying and trimming some edges to make one's speech sound more neutral.**

**It is a process of learning the sound system and melodic intonation of a language so one can communicate with ease and clarity.**

**Ms Zhultara Banda**
