THE IMPACT OF COVID-19 ON LOWER SECONDARY EDUCATION AROUND THE WORLD

The research was conducted in 2022 by IEA (International Association for the Evaluation of Educational Achievement), an international cooperative of national research institution and government research agency based in Germany and Amsterdam since 1958. Aiming to evaluate, understand, and improve education worldwide.

SURVEY PARTICIPANTS

1581 School principals

15,004 teachers

21,063 students

5 KEY FINDINGS

20–85% of students in low-income countries had **no schooling for 4+ months**

20–50% of students had **no one to help with their schoolwork** at times

Principals, teachers and students all reported **decreases in students' academic outcomes**

Socioeconomically disadvantaged students were more likely to express a **fear of falling behind**

Nearly all teachers believe **ICT is important for their work at schools** in the future
