# Effective Classroom-Management & Positive Teaching

1

## UNDERSTANDING CLASSROOM MANAGEMENT

Classroom management involves organising students, space, time, and materials to facilitate learning. Effective strategies help teachers handle disruptions, build positive climates, and address issues like discipline, motivation, and social-emotional challenges, ultimately reducing time lost to misbehavior.

2

## POSITIVE BEHAVIOUR REINFORCEMENT

Focus on observable behaviors and use positive reinforcement to teach new habits. Social praise should target actions, not individuals, while clear rules and routines prevent issues. Teachers act as models, using enthusiasm and reflective practices to inspire students.

3

## SETTING EXPECTATIONS AND MOTIVATION

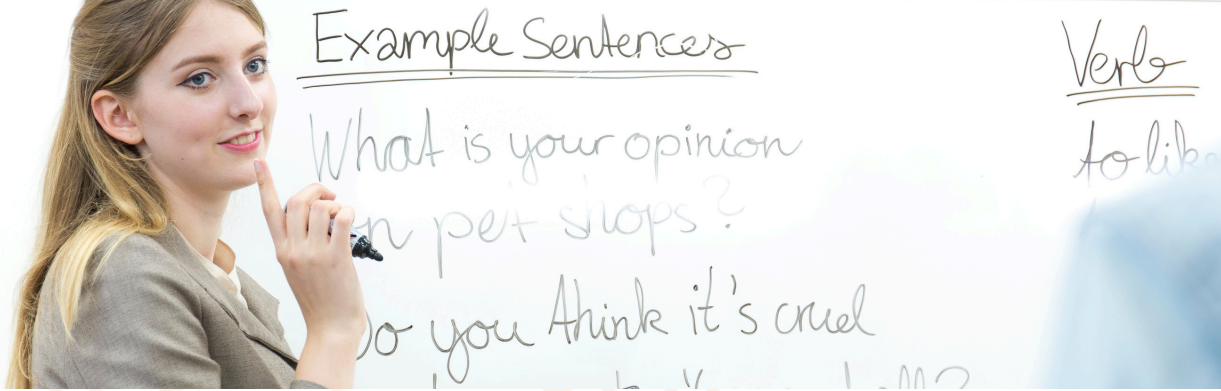

Establish high, realistic academic expectations supported by engaging methods. Motivate students by making learning relevant and memorable, using names, reinforcing participation, and viewing teachers as conductors guiding diverse learners toward intrinsic motivation.

4

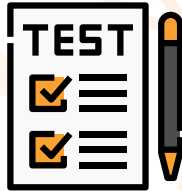

## HANDLING MISTAKES AND DISRUPTIONS

Errors are natural; create a trust-based climate where mistakes are welcomed without shame. Intervene early in disturbances using de-escalation, routines, and options that preserve dignity, turning negatives into positive learning experiences.

# IELTS Training

Dear Teachers,

The EDB confirms you must take the 'IELTS Academic' exam to be hired under the NET Grant.

You'll receive support from **Headstart Group's All-in-One Package**, including:

- 🔥 Exam registration with IDP at your preferred schedule
- 🔥 Exclusive training materials
- 🔥 4-hour Sunday training for Reading and Writing
- 🔥 Fully marked mock tests with personalised feedback

Price: \$3,100 (\$2,500 IDP exam fee + \$600 Headstart training/admin fee; no extra charges).
